## MISTA 2103 Challenge (Results Announced)

Posted on [August 29, 2013](#)

As part of the MISTA closing ceremony the results of the [MISTA 2013 Challenge](#) was announced. The challenge (from the web site) was:

*"In the context of the 6th Multidisciplinary International Scheduling Conference ([MISTA 2013](#)), the CODES research group of KAHO (Engineering Technology, KU Leuven) is organizing a challenge with the goal of stimulating research in scheduling. The challenge deals with the multi-mode resource-constrained multi-project scheduling problem (MRCMPSP) in which multiple projects have to be scheduled, while taking into account the availability of local and global resources."*

On the last day of the conference, nine of the teams presented their work, with the results being announced later that day.

The results are:

**First Place:** A. Kheiri, A. Asta, E. Ozcan, D. Karapetyan and A. Parkes. University of Nottingham, UK

The first prize was 1500 EUROS, which was donated by [iMinds](#).

**Second Place:** Martin J. Geiger. Helmut-Schmidt-Universitat, Universitat der Bundeswehr, Germany

The second prize was 750 EUROS, which was donated by [Conundra](#).

**Third Place:** T.A.M. Toffolo, H.G. Santos, M.A. Moreira de Carvalho and J. Soares. Federal University of Ouro Preto (UFOP), Brazil.

The third prize was 250 EUROS, which was donated by [OM Partners](#).

Congratulations to all the competitors and especially to the prize winners.

We would also like to thank the sponsors for being so generous in supporting the competition.
